1. The Workers' Transport Agency handles the loading and unloading of all products entering and leaving Stara Pazova, including exports and supplies for the enterprises in the district. The agency has seven 3-ton trucks, eleven 5-ton trucks and three trailers. The Director of the agency is Steva Padobranac. The President of the local Workers' Syndicate is Sima Dolinaj and the secretary is Josef Pajtas.
2. During 1948 and 1949, the agency shipped 35,000 tons of raw steel plates from Western Germany, Holland, and Great Britain, to the Jugocelik factory in Zemunska Polje. Thirteen thousand tons of coke were also shipped to the factory in the same period. In the harvest season of 1949, 16,000 tons of grains were exported from Stara Pazova district, mostly to Denmark and Holland. The quantity of grains shipped to these countries in 1950 is not known but during that year there was no need to dry the grains and they could be shipped without delay. In 1949, the agency also shipped 3,600 cubic meters of timber from the Sava forest, near Lenak. The timber was moved to Stara Pazova by the Forest Autotransport Lenak enterprise, which is equipped with 40 3-ton Fiat trucks. In 1950, for the first time the job cutting and loading the timber on the trucks was done by voluntary workers.
